Dear Sir or Madam,

Recently I received a letter from one of the radio stations I love listening to, K-Love 98.7 FM. It informed me of the possibility that the FCC may expand the LPFM service in a way that could take away or have priority over my current FM translator service, causing my station, K-love and maybe others, to be forced off the air.

I do not believe this is necessary. K-Love is a positive, clean radio station I believe in. In other words, it has absolutely NO curse words or dirty jokes said on the station or in the songs for my ears or my little children's ears to hear. K-Love also has a wonderful variety of songs for me to listen to wherever I am going. These are just a few things that I, myself, and community members have noticed and enjoyed having.

If K-Love were to be displaced by a LPFM broadcaster providing other programming, it would be a terrible mistake, with the FCC to be held responsible for it. In a world like that in which we live in today, we need a station like this to inspire us, reminding ourselves to take a moment and reflect in the way in which we live our lives. I love just how positive it is on us and to take that away would only help contribute to so much of the negative images even more that we are influenced by in the world today.

While morals are slipping away in this day and age, this K-Love provider has actual morals that they stand by to help us all live better lives in our roles as community and family members. I am asking you to NOT consider the LPFM. You would not be doing any of us a favor, just a disservice. I am not in favor of LPFM.

Thank you for your time and consideration.

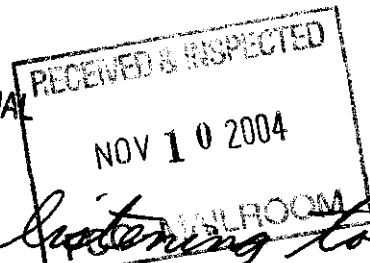

Sincerely,

Sarah Osborne

Dear FCC,

DOCKET FILE COPY ORIGINAL

I thoroughly enjoy listening to K LOVE on my ~~FM~~ station. Please do not change it to a LP FM station. Hundreds of thousands of people listen to K LOVE and are positively affected by its ministry. Because I live in the Sierra foothills, radio reception is often poor. K LOVE's signal is always clear and strong. Please do not change to the LP FM station.

Thank You,

David Baer
